

SOFTWARE / IT LOCALIZATION

Client testimonials

“DYMO Software is localized into 16 languages, ranging from Chinese, to Czech, Polish and Hungarian as well as all Central European languages. After about five years working with a European-based company for localization we felt we needed to look elsewhere.

Our initial project with GlobalVision was the [localization of software](#) and associated documentation into Traditional and Simplified Chinese. They were able to provide both languages at a competitive cost, on time, and with fewer problems than what we had experienced before. Since then, all localization has been moved to GlobalVision and we couldn't be happier.

Coming at the end of a long bit of product development, localization is often done with tremendous time pressures and external stresses. Throughout such trying times, GlobalVision personnel have bent over backwards to see that our needs are met. This professionalism has earned them a very important position as part of DYMO's extended enterprise.”

“We work with many vendors, so we have the ability to compare GlobalVision to others and nobody even come close to high standards held by GlobalVision.”

How do we do it?

- Dedicated and technical Project Manager that speaks your language
- Professional Translators in over 100 languages
- Translation is checked by a second translator
- Professional typesetting in all file formats
- Voice-over and multimedia studio work for your videos, flash and training multimedia tutorials
- IT team to support all file native formats including portable and web enabled apps
- Localization, build, production and QA as needed
- Low overhead for updates – TM for translation reuse
- Transparency and Accountability with TMS tools
- 24/7 access to project status and files with TMS
- ISO 9001:2008 dedication and certification

Why choose GlobalVision?

To put it simply, Experience! We are managers, engineers and linguists, who have been very successful in performing software localization for over a decade. We can separate the art (language) from the science (software) and then fuse them together seamlessly and efficiently allowing experts to work in their own fields.

And by the way, our quality and customer service are second to none in the industry!

Here are more reasons:

- ✓ Full service translation vendor. Support over 100 commercial languages
- ✓ Hand-picked translators tasked to deliver quality your end-user will surely appreciate
- ✓ Experienced project managers passionate about delivering quality work on time and budget
- ✓ Translation database is *your* intellectual property
- ✓ Lower long-term localization costs due to high quality and advanced process
- ✓ Local with global presence, flexible and scalable to meet your growing needs
- ✓ Hand-picked professional staff: Language and Subject expertise, Local and International
- ✓ Process and results driven. You get the best people, process and technology
- ✓ Translation Management System with 24/7 access to your project status and assets
- ✓ A trusted partner that *always* delivers according to set expectations!
